Index for Volume 24 (1975)

COMPILED BY TROY BEST

Absarokius, 389
Acanthocephala, 333–345
Acanthoptyx, 466
Accipiter, 41
Achatina, 469
Achatinella, 466
Achatinellidae, 466, 477, 480, 482
Achillea, 360
Acomys cahirinus, 140
Acris, 1, 6, 10, 11, 13, 16, 287
  crepitans, 2, 5, 8–10
  gryllus, 7–10
Advena, 468
Aerial dispersal, 465–488
Alaria esculenta, 318
Albumin evolution and organismal evolution in tree frogs (Hylidae), Linda R. Maxson and A. C. Wilson, 1–15
Alcaligines, 315
Allenoconcha, 467
Alligator, 44
  mississipiensis, 37
Allodiscus, 467
Allolobophora longa, 410
Allometry, 37–54
Allopatry and ancestors: A response to Cracraft, Sara S. Bretsky, 113–119
Allozymes, 296–310
Amastra, 466
Amastridae, 466, 477, 480, 482
Ambler, R. P., see Sneath, P. H. A., —
Amblyrhynchus, 442
Amphibia, 1–15, 16–23, 98, 281–295
Amphidromus
  inversus, 473
  porcellanus, 472, 473
Amphilinidae, 382
Analysis,
  multivariate, 79–88, 191–198, 296–310
Ancylotherium fraasi, 60
Andrefrancia, 467
Annelida, 96–108
Anolis, 41, 289, 369–373, 433, 438
  angusticpes, 156
  extremus, 371
  luciae, 369–372
  roquet, 369–372
  sagrei, 156
Anonymous (Ed.), Biogéographie et liaisons intercontinentales au Cours du Mésozoique (rev.), 495–497
Anoplodüiden, 384
Anotheca spinosa, 8
Antedon, 99
Anura, 1–15, 16–23
Apogonidae, 443
Aporrhais pes-pelecani, 74
Arca noe, 74
Archachatina, 469
Archaeoscia, 436
Architeuthis solenoides, 499
Ariophantidae, 473
Armadillidae, 435
Armsia, 466
Arthropoda, 24–36, 63–71, 96, 102, 191–198, 223–225, 251–253
Arvicola
  richardsoni, 171
  terrestris, 171
Ascaphus truei, 64
Aspastus, 468, 476
Aspidobothridea, 382
Asterias rubens, 73
Astilbe, 501
Astyanax, 460
  mexicanus, 156
Atchley, William R., see Baker, Robert J., —
Atya, 442
Auriculella, 466
Australopithecus, 226–233
  africanus, 388
  boisei, 388
  robustus, 388
Aves, 249, 250
Axelrod, D. I., see Raven, P. H., and —
Azotobacter vinelandii, 317, 318, 320, 321

Baker, Robert J., William J. Bleier, and William R. Atchley, A contact zone between karyotypically characterized taxa of *Uroderma bilobatum* (Mammalia: Chiroptera), 133–142

Cain, S. A., Foundations of plant geography (rev.), 489–490
Caire, William, and Earl G. Zimmerman, Chromosomal and morphological variation and circular overlap in the deer mouse, *Peromyscus maniculatus*, in Texas and Oklahoma, 89–95
Calisto, 435
Callionymidae, 443
Callorhynchus, 382
Calopterygidae, 24–36
Calopteryx
aequabilis, 24–36
maculata, 24–36
splendens, 28, 33, 34
virgo, 34
Camaenidae, 468, 472, 473, 480, 482
Camptonyx, 466
Camptosaurus, 52
Cancelloconus, 467
Carapidae, 443
Carelia, 466, 476
Carlhubbsia, 438, 457
Carlton, James T., see Smith, Ralph I., and —
Caribbean biogeography, 431–464
Case, Susan M., Patricia G. Haneline, and Margaret F. Smith, Protein variation in several species of *Hyla*, 281–295
Cassiopea andromeda, 76
Casuarius, 49
Catinella, 466
Centrosaurus, 52
Cephalopoda, 96
Ceratotherium, 41
Cercopithecus aethiops, 218
Cestoda, 378–385
Chalicotheres, 55–62
Chalicotherium
goldfussi, 60
grande, 60
modicum, 59
rusingense, 59
Character displacement, 16–23, 24–36
Charopa, 466, 469
Chelonia, 250
Chelonidis elephantopus, 442
Cheneosaurus, 52
Chimaera, 382
Chiroptera, 133–142
Chlamys septemradiata, 75
Chloritis, 468
helicinoides, 473
Chlorobium thiosulfatophilum, 315, 318
Chondrinidae, 466, 472–474, 480, 482
Chordata, 96, 100
Chromosomal and morphological variation and circular overlap in the deer mouse, *Peromyscus maniculatus*, in Texas and Oklahoma, William Caire and Earl G. Zimmerman, 89–95
Chromosomal variation, see Karyotypes

Systematic Zoology

Published by

The Society of Systematic Zoology

Contents of Volume 24, 1975, Numbers 1–4

Issued 1975, Lawrence, Kansas U.S.A.

NUMBER 1

Albumin Evolution and Organismal Evolution in Tree Frogs (Hylidae) *Linda R. Maxson and A. C. Wilson* 1
Speciation in Chorus Frogs. I. Reproductive Character Displacement in the *Pseudacris nigrita* Complex *M. J. Fouquette, Jr.* 16
Reproductive Isolation and the Potential for Character Displacement in the Damselflies, *Calopteryx maculata* and *C. aequabilis* (Odonata: Calopterygidae) *Jonathan K. Waage* 24
Taxonomic Implications of Relative Growth in Lambeosaurine Hadrosaurs *Peter Dodson* 37
Sexual Dimorphism in Chalicotheres (Mammalia, Perissodactyla) *Margery Chalifoux Coombs* 55
Multiple-Discriminant Analysis of Geographical Variation in the Aquatic Beetle, *Rhantus gutticollis* (Say) (Dytiscidae) *James R. Zimmerman and John A. Ludwig* 63
Pleistocene Pulsation and Preadaptation of Biotas in Mediterranean Seas: Consequences for Lessepsian Migration *F. D. Por* 72
Geographical and Interspecific Cranial Variation in Big-Eared Ground Squirrels (*Spermophilus*): A Multivariate Study *Jon William Robinson and Robert S. Hoffmann* 79
Chromosomal and Morphological Variation and Circular Overlap in the Deer Mouse, *Peromyscus maniculatus*, in Texas and Oklahoma *William Caire and Earl G. Zimmerman* 89
Validity of the Protostomia-Deuterostomia Theory *Søren Løvtrup* 96
Points of View
The Language of Scientific Names in Zoology *Curtis W. Sabrosky* 109
Type Specimens *vs.* Voucher Specimens *Wm. H. Robinson* 110
Geographic Variation in Physiological Characters of the Arachnid *Leiobunum longipes*: Has a Case Been Made? *Gary C. Packard and R. Kent Stiverson* 111
Allopatry and Ancestors: A Response to Cracraft *Sara S. Bretsky* 113
Paleontology and Phylogenetics: A Response to Bretsky *Joel Cracraft* 119
Reviews
Biological Systematics • Ecology • Biogeography and Ecology in Tasmania • Avian Speciation in Tropical South America, with a Systematic Survey of the Toucans (Ramphastidae) and Jacamars (Galbulidae) • Annual Review of Ecology and Systematics. Volume 5 121
Books Received 128
Notices
Candidates for President-Elect and Council • Council and Business Meetings, 1974 • Report of Auditing Committee, 1974 • Financial Statements 129

NUMBER 2

A Contact Zone Between Karyotypically Characterized Taxa of *Uroderma bilobatum* (Mammalia: Chiroptera) *Robert J. Baker, William J. Bleier, and William R. Atchley* 133
Genetic Variation and Systematics of Four Species of Mice of the *Peromyscus boylii* Species Group *C. William Kilpatrick and Earl G. Zimmerman* 143
Relationships of the Red-Backed Vole, *Clethrionomys rutilus* (Pallas), in North America: Karyotypes of the Subspecies *dawsoni* and *albiventer* *R. L. Rausch and V. R. Rausch* 163
"Hip Glands" of *Microtus pennsylvanicus* and *M. longicaudus* (Rodentia: Muridae), Voles Without Hip Glands *Frederick J. Jannett, Jr.* 171
Component Analysis of Osteometric Traits in Randombred House Mice *Larry Leamy* 176
Numeric Analyses of Relationships of Genera and Species of the Subtribe Termitusina (Coleoptera: Staphylinidae) *Herbert R. Jacobson and David H. Kistner* 191
Semi-Automatic Data Recording *W. Wayne Moss and Dennis M. Power* 199
Primate Phylogeny, Neutral Mutations, and "Molecular Clocks" *Dwight W. Read* 209
Points of View
Monograph Publication *Leigh Van Valen* 222
Museum Collections as an Alternative to Publication in Insect Taxonomy *E. G. Matthews* 223

A Response to E. G. Matthews — *Randall T. Schuh* 225
Morphometric Assessment of Australopithecine Postcranial Affinities — *Robert S. Corruccini* 226
Karl R. Popper, Systematics, and Classification: A Reply to Walter Bock and Other Evolutionary Taxonomists — *E. O. Wiley* 233
"Cladistic Analysis or Cladistic Classification?": A Reply to Ernst Mayr — *Willi Hennig* 244
Mayr on Cladism—and His Critics — *Robert R. Sokal* 257
Reviews
Numerical Taxonomy. The Principles and Practice of Numerical Classification [Pro and Con] • Light's Manual: Intertidal Invertebrates of the Central California Coast, Third Edition • Darwin Retried • Inédits de Lamarck. D'après les Manuscrits Conservés à la Bibliotèque Centrale du Muséum National d'Histoire Naturelle de Paris 263
Letter 276
Notices
The Classification Society • SSZ Archives • Erratum [Financial Statement] 279

NUMBER 3

Protein Variation in Several Species of Hyla — *Susan M. Case, Patricia G. Haneline, and Margaret F. Smith* 281
Genetic and Morphologic Divergence Among Introduced Rat Populations (*Rattus rattus*) of the Galápagos Archipelago, Ecuador — *James L. Patton, Suh Y. Yang, and Philip Myers* 296
Detecting Evolutionary Incompatibilities from Protein Sequences — *P. H. A. Sneath, M. J. Sackin, and R. P. Ambler* 311
Meristograms: Graphical Analysis of Serial Variation of Proboscis Hooks of *Echinorhynchus* (Acanthocephala) — *David G. Huffman and Wilbur L. Bullock* 333
Morphometry of the *Conus* Shell — *Alan J. Kohn and Alan C. Riggs* 346
Points of View
Cladistic Representation of Reticulate Evolution — *P. H. A. Sneath* 360
Genetic Variation and Genetic Distance Among Populations of *Anolis* Lizards on Two Lesser Antillean Island Banks — *George C. Gorman and Yung J. Kim* 369
Finding All Monothetic Subsets of a Taxonomic Group — *Glenn Sharrock and Joseph Felsenstein* 373
Life-Histories and Systematics of Parasitic Flatworms — *Horace W. Stunkard* 378
Reviews
Evolutionary Paleoecology of the Marine Biosphere • A History of Fishes • Approaches to Primate Paleobiology • Evolution and Extinction Rate Controls • Charles Darwin's Natural Selection • Continental Drift • Philosophy of Natural Science • The Structure of Scientific Revolutions • Galileo: A Philosophical Study 386
Books Received 402
Notices
Systematic Resources in Invertebrate Zoology • SSZ Constitution • Summer Course in NT • New Journals • Computer Projects • Vertebrate Phylogeny 403

NUMBER 4

SYMPOSIUM: WORLD PERSPECTIVES IN BIOGEOGRAPHY

Nature and Formulation of Biogeographical Hypotheses — *Ian R. Ball* 407
A Vicariance Model of Caribbean Biogeography — *Donn E. Rosen* 431
Body Size, Aerial Dispersal, and Origin of the Pacific Land Snail Fauna — *Joseph Vagvolgyi* 465
Program Notes 488
Reviews
Foundations of Plant Geography • The Geography of the Flowering Plants • Ecology and Biogeography in India • Angiosperm Biogeography and Past Continental Movements • Taxonomy Phytogeography and Evolution • Biogeography and Ecology in New Zealand • Biogéographie et Liaisons Intercontinentales au Cours du Mésozoïque • Biologie de l'Amérique Australe • Atlas of Palaeobiogeography • Organisms and Continents Through Time • Implications of Continental Drift to the Earth Sciences • The Age of the Ocean Basins • Floristics and Paleofloristics of Asia and Eastern North America • Biogeography: The Twenty-First Systematics Symposium • Introduction to Zoogeography • Principles and Problems of Zoogeography • Introduction to Biogeography • 25 Years of Botany • Flowering Plants: Evolution Above the Species Level 489
Letter 507
Notices
Pogonophora • Ernst Mayr Student Award • ASC Newsletter • Honorary Members of SSZ • CW • Annual Meeting • New Officers • Editorial Structure • Manuscript Reviewers • Bicentennial Symposium • Paleontological Convention II • New Journal • Minutes of the Council and Business Meetings, 1975 • Reports of the Secretary, Treasurer, and Editor • Solution • Financial Statements 512
Index to Volume 24 — *Troy Best* 523
